

ISL Products International

COMPANY PRESENTATION

**Designers and Manufacturers of
Value-Added Electromechanical Components**

Vision | Mission | Value

Vision

- ISL works with Design & Engineering professionals, backed by years of experience to ensure that your project is utilizing optimized components that enhance your project.

Mission

- Our mission is to understand our customer's needs and application so that we can provide an optimal component solution.

Value

- We classify our components as value-added
- Enhance the performance of standardized components
- Cost effective solutions
- ISL can offer application specific components
- Competitive price points

ISL SPECIALTIES

Designers and manufacturers of value-added electromechanical components

Customer Component Challenge
When off-the-shelf components are not optimal

Collaborative Engineering
Understanding your application goals

Warehousing & Inventory Management
Never go line-down

Application Specific Design
Our engineering team provides an application specific solution

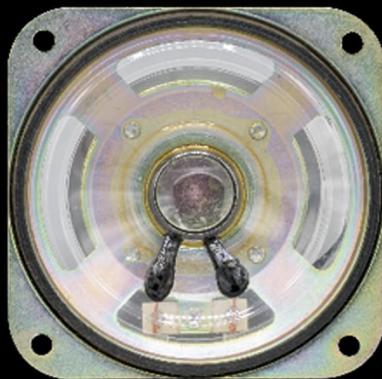

Manufacturer of Value-Added Components
World-class, global manufacturer

Quality Assurance & Product Testing
Ensure that components meet desired specifications

Providing engineered solutions, at the component level!

Audio Components

Loudspeakers | Buzzers | Sirens
Transducers

DC Motors & Gear Motors

Brushed | BLDC | Stepper | Planetary
Spur | Worm | Crossflow Blower Fans

Ballasts & Power Supplies

UV-C Ballasts | Wall Plug-In
Desktop

Our unique components are designed to suit your specific application's requirements. We don't offer "off-the-shelf" components. Due to the varying requirements of our customers, typically our components are built-to-order.

BENEFITS OF VALUE-ADDED

STANDARD

- Not application specific
- Off-the-shelf availability
- Unpredictable life cycles
- Distributor oriented

VALUE-ADDED

- Cost Effective
- Minimal Tooling
- Project Based
- Enhanced Performance
- Application Specific
- Little-to-No NRE
- EOL Solutions

CUSTOM

- Long Lead Times
- Meets exact requirements
- Ownership of design
- Single Source

DECADES OF EXPERTISE

INDUSTRIES SERVED

Automated Retail

UV-C Germicidal

Healthcare

Security

Robotics

Industrial Machinery

Value-Added Components To Serve Any Industry

UV-C Germicidal | Robotics | Industrial Machinery | Automated Retail | Food Service Equipment
Food Service | Healthcare | Medical | Mass Transit | Audio/Visual

LOGISTICS MANAGEMENT

ISL provides logistic management to meet all your supply chain needs.

Warehousing

Our main warehouse is centrally located in the Kansas City region and contains one million square feet of space.

Our New York headquarters contains a small warehouse for our East Coast & European clients.

Forecasting

We work with our customers to determine forecasting trends to ensure uninterrupted production.

Just-In-Time Programs

We encourage and accept Blanket Purchase Orders in order to benefit from our stock and release program and large volume pricing.

CUSTOMERS SERVED

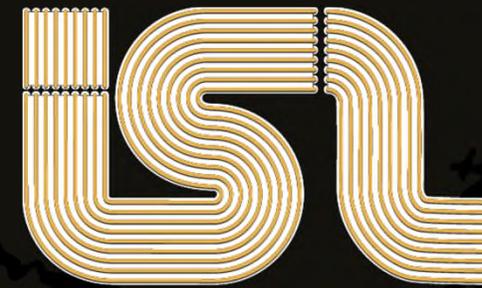

Our customers range from Start-Ups to Fortune 500 companies. Our components are integrated into some of the most unique devices around the globe. Check out our [Case Studies](#) to see how we can solve your component challenges!
